The latest technology applied to the new Light model has turned this helmet into a worthy rival. It guarantees comfort and protection in riskier situations.

Its external shell, designed in fibre, is what differentiates it on the market and in the heads of the most daring motocross riders – they really understand what it means to carry out each one of their achievements with the Light, feeling its lightweight, safe design in each challenge they come up against.

# LINKIN RIDE PAL III

The most advanced rider communication technology has been applied to the new LINKIN Ride Pal. Having headphones integrated in the EPS of the inner shell, without the need for external pieces, and being easily connectible via USB, LINKIN Ride Pal can be added to all new LS2 models. It's a versatile communication solution with a simple design for those who love two wheels and the open road.

## TECH SPECS

## LINKIN® RIDE PAL 3

by SENA
